

Paper Snake

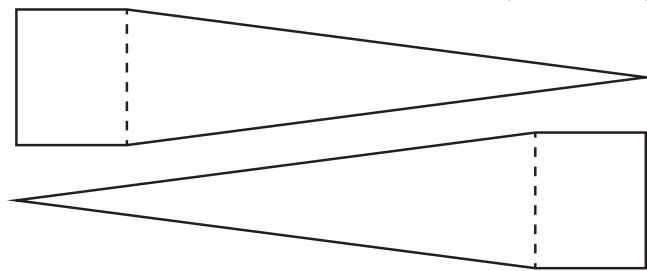

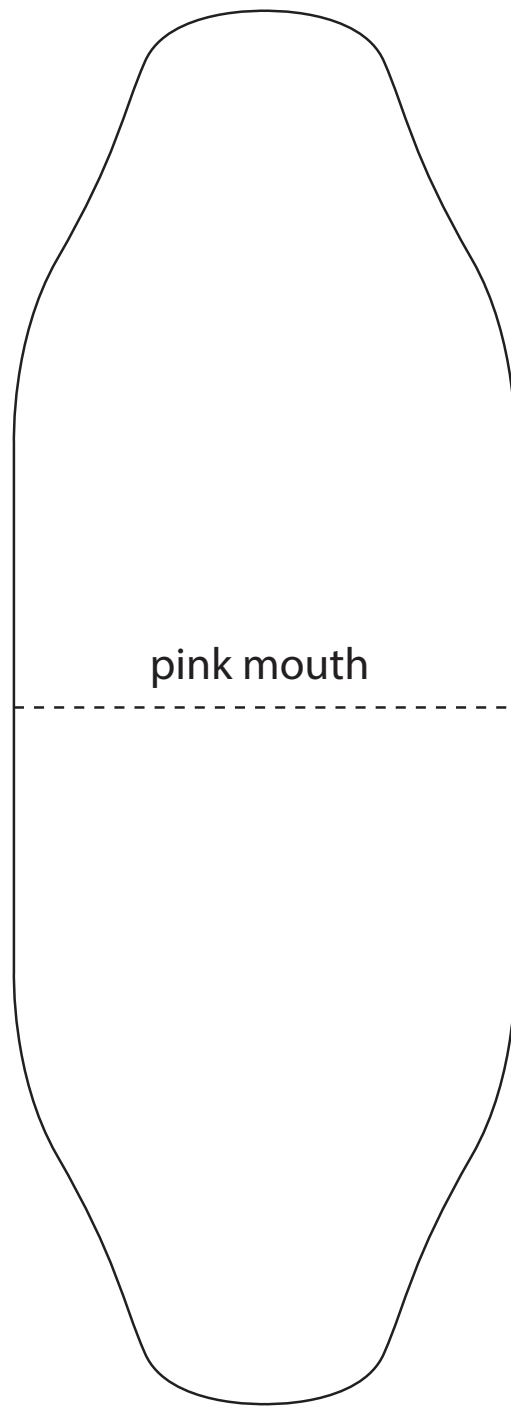

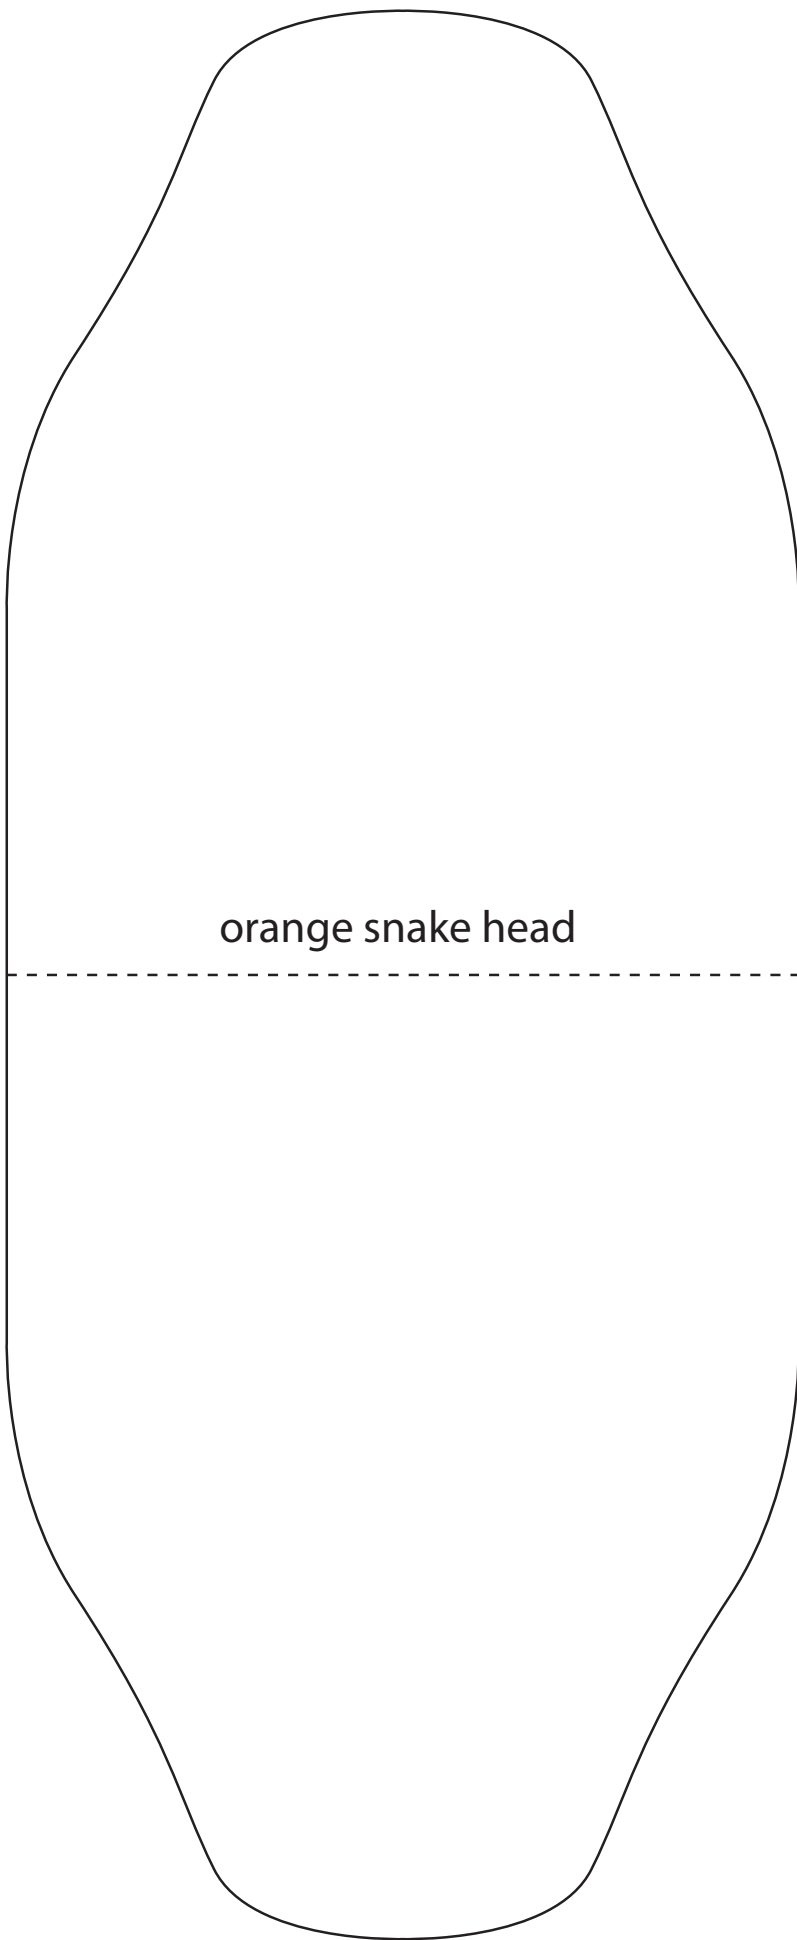

Supplies:

- Orange, pink, red, and white paper
- Ruler
- Scissors
- Glue
- Stapler
- Large googly eyes

Directions:

1. Cut an 8.5" x 11" sheet of orange paper into four vertical strips that measure 2.125" x 11". Repeat to make 15-30 strips, depending on how long you want your snake to be.
2. Staple the strips into circles, interlocking them to each other to create a paper chain.
3. Cut out pieces of the snake head template on page 2, and trace them onto suggested colored paper as indicated.
4. Glue the pink mouth shape in the center of the orange head shape.
5. Fold the orange and pink piece in half to create the head.
6. Fold the white fangs along the fold lines. Apply glue to the tab and glue the fangs to top of the snake mouth.
7. Glue the tongue to the bottom of the snake's mouth.
8. Glue large googly eyes to the top of the snake's head.
9. Staple the head to one end of the paper chain.
